

Medical Knowledge Base for RAG Testing

Diabetes

Symptoms: frequent urination, increased thirst, increased hunger, fatigue, blurred vision.
Treatment: healthy diet, regular exercise, metformin when prescribed. Prevention: maintain healthy weight and regular physical activity.

Hypertension

Symptoms may be absent. Some patients experience headaches or dizziness. Treatment: reduce salt intake, exercise, prescribed antihypertensive medicines, regular monitoring.

Common Cold

Symptoms: runny nose, sore throat, cough, sneezing. Treatment: rest, hydration, symptomatic relief.

Asthma

Symptoms: wheezing, shortness of breath, chest tightness, coughing. Treatment: inhalers as prescribed, avoid triggers.

Emergency Advice

Chest pain, severe breathing difficulty, stroke symptoms, or loss of consciousness require immediate emergency medical care.
